(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED SEPTEMBER 30, 2017

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

COMMISSION FILE NUMBER 1-13397

Ingredion Incorporated

(Exact name of Registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of incorporation or organization)

22-3514823

(I.R.S. Employer Identification Number)

5 WESTBROOK CORPORATE CENTER
WESTCHESTER, ILLINOIS

(Address of principal executive offices)

60154

(Zip Code)

(708) 551-2600

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

CLASS	OUTSTANDING AT OCTOBER 31, 2017

INGREDION INCORPORATED (“Ingredion”)
Notes to Condensed Consolidated Financial Statements

1. Interim Financial Statements

References to the “Company” are to Ingredion Incorporated (“Ingredion”) and its consolidated subsidiaries. These statements should be read in conjunction with the consolidated financial statements and the related notes to those statements contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016.

The unaudited Condensed Consolidated Financial Statements included herein were prepared by management on the same basis as the Company’s audited Consolidated Financial Statements for the year ended December 31, 2016 and reflect all adjustments (consisting solely of normal recurring items unless otherwise noted) which are, in the opinion of management, necessary for the fair presentation of results of operations and cash flows for the interim periods ended September 30, 2017 and 2016, and the financial position of the Company as of September 30, 2017. The results for the interim periods are not necessarily indicative of the results expected for the full years.

2. Recently Adopted and New Accounting Standards

Recently Adopted Accounting Standards: In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. This Update requires an entity to measure inventory at the lower of cost and net realizable value, removing the consideration of current replacement cost. It is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016, with early adoption permitted. We adopted this Update in the current year and it did not have a material impact on our audited Condensed Consolidated Financial Statements.

New Accounting Standards: In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* that introduces a new five-step revenue recognition model in which an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU also requires disclosures sufficient to enable users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative disclosures about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. The FASB has also issued additional ASUs to provide further updates and clarification to this Update, including ASU 2015-14, ASU 2016-08, ASU 2016-10, ASU 2016-12 and ASU 2016-20. This standard is effective for fiscal years beginning after December 15, 2017, including interim periods within that reporting period. We plan to adopt the standard as of the effective date. The standard will allow various transition approaches upon adoption. We plan to use the modified retrospective approach for the transition to the new standard. Based on the analysis performed by the Company to date, our assessment is that the adoption of the guidance in this Update is not expected to have a material impact on the Company’s revenue recognition timing or amounts, as we have not identified any changes to the recognition of revenue for existing customer contracts.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which supersedes Topic 840, Leases. This Update increases the transparency and comparability of organizations by recognizing lease assets and lease liabilities on the balance sheet for leases longer than 12 months and disclosing key information about leasing arrangements. The recognition, measurement and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed. This Update is effective for annual periods beginning after December 15, 2018, with early adoption permitted. We currently plan to adopt the standard as of the effective date. Adoption will require a modified retrospective approach for the transition. We expect the adoption of the guidance in this Update to have a material impact on our Consolidated Balance Sheet as operating leases will be recognized both as assets and liabilities on the Consolidated Balance Sheet. We are in the process of quantifying the magnitude of these changes and assessing the implementation approach for accounting for these changes.

In January 2017, the FASB issued ASU No. 2017-04, *Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*. This Update simplifies the subsequent measurement of Goodwill as the Update eliminates Step 2 from the goodwill impairment test. Instead, under the Update, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should then recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit’s fair value,

with the loss recognized not to exceed the total amount of goodwill allocated to that reporting unit. This Update is effective for annual periods beginning after December 15, 2019, with early adoption permitted.

In March 2017, the FASB issued ASU No. 2017-07, *Compensation – Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. This Update requires an entity to change the classification of the net periodic benefit cost for pension and postretirement plans within the statement of income by eliminating the ability to net all of the components of the costs together within operating income. The Update will require the service cost component to continue to be presented within operating income, classified within either cost of sales or operating expenses depending on the employees covered within the plan. The remaining components of the net periodic benefit cost, however, must be presented in the statement of income as a non-operating income (loss) below operating income. The Update is effective for annual periods beginning after December 15, 2017, with early adoption permitted only within the first interim period for public entities. We plan to adopt this Update in 2018. When adopted, the new guidance must be applied retrospectively for all income statement periods presented. The Update will reduce the Company's operating income and will require a new financial statement line item below operating income within the Condensed Consolidated Statements of Income for the non-operating income (loss) components. Net income within the Condensed Consolidated Statements of Income will not change upon adoption of the Update.

In August 2017, the FASB issued ASU No. 2017-12, *Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities*. This Update modifies accounting guidance for hedge accounting by making more hedge strategies eligible for hedge accounting, amending presentation and disclosure requirements, and changing how companies assess ineffectiveness. The intent is to simplify the application of hedge accounting and increase transparency of information about an entity's risk management activities. The amended guidance is effective for annual periods beginning after December 15, 2018, with early adoption permitted. We are in the process of assessing the effects of these updates including potential changes to existing hedging arrangement, as well as the implementation approach for accounting for these changes.

3. Acquisitions

On March 9, 2017, the Company completed its acquisition of Sun Flour Industry Co., Ltd. ("Sun Flour") in Thailand for \$18 million. Upon closing, the Company paid \$13 million in cash and recorded \$5 million in accrued liabilities for deferred payments due to the previous owner. The Company funded the acquisition primarily with cash on hand. The acquisition of Sun Flour adds a fourth manufacturing facility to our operations in Thailand. Sun Flour produces rice-based ingredients used primarily in the food industry. The results of the acquired operation are included in the Company's consolidated results from the acquisition date forward within the Asia Pacific business segment.

On December 29, 2016, the Company completed its acquisition of TIC Gums Incorporated ("TIC Gums"), a privately held, U.S.-based company that provides advanced texture systems to the food and beverage industry, for \$396 million, net of cash acquired. The acquisition adds a manufacturing facility in both the U.S. and China. The Company funded the acquisition with proceeds from borrowings under its revolving credit agreement. The results of the acquired operations are included in the Company's consolidated results from the respective acquisition dates forward within the North America and Asia Pacific business segments.

On November 29, 2016, the Company completed its acquisition of Shandong Huanong Specialty Corn Development Co., Ltd. ("Shandong Huanong") in China for \$12 million in cash. The Company funded the acquisition primarily with cash on hand. The acquisition of Shandong Huanong, located in Shandong Province, adds second manufacturing facility to our operations in China. It produces starch raw material for our plant in Shanghai, which makes value-added ingredients for the food industry. The results of the acquired operation are included in the Company's consolidated results from the acquisition date forward within the Asia Pacific business segment.

A preliminary allocation of the purchase price to the assets acquired and liabilities assumed was made based on available information and incorporating management's best estimates. The assets acquired and liabilities assumed for each acquisition in the transactions are generally recorded at their estimated acquisition date fair values, while transaction costs associated with the acquisitions were expensed as incurred.

The purchase accounting for TIC Gums is still open, pending finalization of goodwill and taxes. All of the recorded assets and liabilities, including working capital, property, plant and equipment ("PP&E"), goodwill, and intangibles, are open for performing purchase accounting adjustments for Sun Flour. Purchase accounting adjustments for Shandong Huanong remain open to finalize the valuation of intangible assets.

Goodwill represents the amount by which the purchase price exceeds the estimated fair value of the net assets acquired. The goodwill results from synergies and other operational benefits expected to be derived from the acquisitions. The goodwill related to TIC Gums and Shandong Huanong is tax deductible due to the structure of the acquisitions. The goodwill related to Sun Flour is not tax deductible.

The following table summarizes the preliminary purchase price allocation for the acquisition of TIC Gums as of December 29, 2016:

(in millions)	Preliminary TIC Gums
Working capital (excluding cash)	\$ 49
Property, plant and equipment	37
Identifiable intangible assets	133
Goodwill	177
Total purchase price, net of cash	<u>\$ 396</u>

The identifiable intangible assets for the acquisition of TIC Gums included items such as customer relationships, trade names, and proprietary technology. The fair values of these intangible assets were determined to be Level 3 under the fair value hierarchy. Level 3 inputs are unobservable inputs for an asset or liability. Unobservable inputs are used to measure fair value to the extent that observable inputs are not available, thereby allowing for fair value estimates to be made in situations in which there is little, if any, market activity for an asset or liability at the measurement date. The following table presents the fair values, valuation techniques, and estimated remaining useful life at the acquisition date for these Level 3 measurements (dollars in millions):

	Fair Value	Valuation Technique	Estimated Useful Life
Customer relationships	\$ 94	Multi-period excess earnings method	20 years
Trade names	35	Relief-from-royalty method	Indefinite
Proprietary technology	4	Relief-from-royalty method	8 years

The acquisitions of Sun Flour and Shandong Huanong added \$21 million to goodwill and identifiable intangible assets and \$9 million to net tangible assets as of their respective acquisition dates.

Included in the results of the acquired businesses for the nine months ended September 30, 2017 was an increase in cost of sales of \$9 million relating to the sale of inventory that was adjusted to fair value at the acquisition dates for each acquired business in accordance with business combination accounting rules. The fair value adjustments for the three months ended September 30, 2017 had no effect on cost of sales.

Pro-forma results of operations for the acquisitions made in 2017 and 2016 have not been presented as the effect of each acquisition individually and in aggregate would not be material to the Company's results of operations for any periods presented.

The Company incurred \$1 million and \$3 million of pre-tax acquisition and integration costs for the three and nine months ended September 30, 2017, respectively, associated with its recent acquisitions. In 2016, the Company incurred \$2 million of pre-tax acquisition and integration costs for the nine months ended September 30, 2016 associated with the 2015 acquisitions of Kerr Concentrates, Inc. and Penford Corporation. Pre-tax acquisition and integration costs incurred for the three months ended September 30, 2016 were not significant.

4. Impairment and Restructuring Charges

For the three and nine months ended September 30, 2017, the Company recorded \$7 million and \$23 million, respectively, of pre-tax restructuring charges. During the first quarter of 2017, the Company implemented an organizational restructuring effort in Argentina in order to achieve a more competitive cost position. The Company notified the local labor union of a planned reduction in workforce, which resulted in a strike by the labor union and an interruption of manufacturing activities during the second quarter of 2017. The Company finalized a new labor agreement with the labor union in the second quarter, ending the strike on June 1, 2017. For the nine months ended September 30, 2017, the Company recorded total pre-tax restructuring-related charges in Argentina of \$17 million for employee-related severance and other costs. No additional charges were recorded for the three months ended September 30, 2017.

During the second quarter of 2017, the Company announced a Finance Transformation initiative in North America for the U.S. and Canada businesses to strengthen organizational capabilities and drive efficiencies to support the growth strategy of the Company. For the three and nine months ended September 30, 2017, the Company recorded pre-tax restructuring charges of \$4 million (\$3 million of severance costs and \$1 million of other costs) and \$5 million (\$3 million of severance costs and \$2 million of other costs), respectively, related to this initiative. The Company expects to incur between \$3 million and \$5 million of employee-related severance and other costs in the fourth quarter of 2017 and between \$1 million and \$2 million in 2018 related to this initiative.

Additionally, for the three months ended September 30, 2017, the Company recorded \$3 million of other pre-tax restructuring costs including employee-related severance costs in North America. For the nine months ended September 30, 2017, the Company recorded \$1 million of other pre-tax restructuring charges including other employee-related severance costs in North America and a refinement of estimates for prior year restructuring activities.

During the third quarter of 2016, the Company recorded \$2 million of restructuring charges for employee-related severance and other costs due to the execution of global information technology (“IT”) outsourcing contracts. For the nine months ended September 30, 2016, the Company recorded \$15 million of restructuring charges consisting of \$10 million of employee-related severance and other costs due to the execution of global IT outsourcing contracts, \$3 million of employee-related severance costs associated with the Company’s optimization initiative in South America and \$2 million of costs attributable to the 2015 Port Colborne plant sale.

A summary of the Company’s severance accrual as of September 30, 2017 is as follows (in millions):

Balance in severance accrual as of December 31, 2016	\$ 7
Restructuring charge for employee-related severance costs:	
Argentina	15
North America Finance Transformation	3
Other	2
Prior year restructuring activities	(2)
Payments made to terminated employees	(14)
Balance in severance accrual as of September 30, 2017	<u>\$ 11</u>

Of the \$11 million severance accrual as of September 30, 2017, \$9 million is expected to be paid in the next 12 months.

5. Segment Information

The Company is principally engaged in the production and sale of starches and sweeteners for a wide range of industries, and is managed geographically on a regional basis. The Company’s operations are classified into four reportable business segments: North America, South America, Asia Pacific and Europe, Middle East and Africa (“EMEA”). Its North America segment includes businesses in the U.S., Canada and Mexico. The Company’s South America segment includes businesses in Brazil, Colombia, Ecuador and the Southern Cone of South America, which includes Argentina, Chile, Peru and Uruguay. Its Asia Pacific segment includes businesses in South Korea, Thailand, China, Japan, Indonesia, the Philippines, Singapore, Malaysia, India, Australia and New Zealand. The Company’s EMEA segment includes businesses in Germany, the United Kingdom, Pakistan, South Africa and Kenya. The Company does not aggregate its operating segments when determining its reportable segments. Net sales by product are not presented because to do so would be impracticable.

6. Financial Instruments, Derivatives and Hedging Activities

The Company is exposed to market risk stemming from changes in commodity prices (primarily corn and natural gas), foreign currency exchange rates and interest rates. In the normal course of business, the Company actively manages its exposure to these market risks by entering into various hedging transactions, authorized under established policies that place clear controls on these activities. These transactions utilize exchange-traded derivatives or over-the-counter derivatives with investment grade counterparties. Derivative financial instruments currently used by the Company consist of commodity-related futures, options and swap contracts, foreign currency-related forward contracts, interest rate swaps and Treasury lock agreements (“T-Locks”).

Commodity price hedging: The Company’s principal use of derivative financial instruments is to manage commodity price risk in North America relating to anticipated purchases of corn and natural gas to be used in the manufacturing process, generally over the next 12 to 24 months. To manage price risk related to corn purchases in North America, the Company uses corn futures and options contracts that trade on regulated commodity exchanges to lock-in its corn costs associated with firm-priced customer sales contracts. The Company uses over-the-counter natural gas swaps to hedge a portion of its natural gas usage in North America. These derivative financial instruments limit the impact that volatility resulting from fluctuations in market prices will have on corn and natural gas purchases and have been designated as cash-flow hedges. The Company also enters into futures contracts to hedge price risk associated with fluctuations in the market price of ethanol. Unrealized gains and losses associated with marking the commodity hedging contracts to market (fair value) are recorded as a component of other comprehensive income (“OCI”) and included in the equity section of the Condensed Consolidated Balance Sheets as part of accumulated other comprehensive income/loss (“AOCI”). These amounts are subsequently reclassified into earnings in the same line item affected by the hedged transaction and in the same period or periods during which the hedged transaction affects earnings, or in the month a hedge is determined to be ineffective. The Company assesses the effectiveness of a commodity hedge contract based on changes in the contract’s fair value. The changes in the market value of such contracts have historically been, and are expected to continue to be,

highly effective at offsetting changes in the price of the hedged items. The amounts representing the ineffectiveness of these cash-flow hedges are not significant.

At September 30, 2017, AOCI included \$5 million of losses (net of income taxes of \$4 million), pertaining to commodities-related derivative instruments designated as cash-flow hedges. At December 31, 2016, the amount included in AOCI pertaining to these commodities-related derivative instruments designated as cash-flow hedges was not significant.

Interest rate hedging: Derivative financial instruments that have been used by the Company to manage its interest rate risk consist of interest rate swaps and T-Locks. The Company has interest rate swap agreements that effectively convert the interest rates on \$200 million of its \$400 million of 4.625 percent senior notes due November 1, 2020, to variable rates. These swap agreements call for the Company to receive interest at the fixed coupon rate of the respective notes and to pay interest at a variable rate based on the six-month U.S. dollar LIBOR rate plus a spread. The Company has designated these interest rate swap agreements as hedges of the changes in fair value of the underlying debt obligations attributable to changes in interest rates and accounts for them as fair-value hedges. Changes in the fair value of interest rate swaps designated as hedging instruments that effectively offset the variability in the fair value of outstanding debt obligations are reported in earnings. These amounts offset the gain or loss (the change in fair value) of the hedged debt instrument that is attributable to changes in interest rates (the hedged risk), which is also recognized in earnings. The fair value of these interest rate swap agreements at September 30, 2017 and December 31, 2016 was \$3 million and \$3 million, respectively, and is reflected in the Condensed Consolidated Balance Sheets within other assets, with an offsetting amount recorded in long-term debt to adjust the carrying amount of the hedged debt obligations. The Company did not have any T-Locks outstanding at September 30, 2017 or December 31, 2016.

At September 30, 2017, AOCI included \$3 million of losses (net of income taxes of \$2 million), related to settled T-Locks. At December 31, 2016, AOCI included \$4 million of losses (net of income taxes of \$2 million), related to settled T-Locks. These deferred losses are being amortized to financing costs over the terms of the senior notes with which they are associated.

Foreign currency hedging: Due to the Company's global operations, including operations in many emerging markets, it is exposed to fluctuations in foreign currency exchange rates. As a result, the Company has exposure to translational foreign exchange risk when the results of its foreign operations are translated to U.S. dollars and to transactional foreign exchange risk when transactions not denominated in the functional currency are revalued. The Company primarily uses derivative financial instruments such as foreign currency forward contracts, swaps and options to manage its transactional foreign exchange risk. At September 30, 2017, the Company had foreign currency forward sales contracts that are designated as fair value hedges with an aggregate notional amount of \$447 million and foreign currency forward purchase contracts with an aggregate notional amount of \$173 million that hedged transactional exposures. At December 31, 2016, the Company had foreign currency forward sales contracts with an aggregate notional amount of \$432 million and foreign currency forward purchase contracts with an aggregate notional amount of \$227 million that hedged transactional exposures.

The Company also has foreign currency derivative instruments that hedge certain foreign currency transactional exposures and are designated as cash-flow hedges. At September 30, 2017, AOCI included an insignificant amount of losses relating to these hedges. At December 31, 2016, AOCI included \$3 million of losses, net of tax, relating to these hedges.

The fair value and balance sheet location of the Company's derivative instruments, presented gross in the Condensed Consolidated Balance Sheets, are reflected below:

Derivatives designated as hedging instruments: (in millions)	Fair Value of Derivative Instruments					
	Balance Sheet Location	Fair Value		Balance Sheet Location	Fair Value	
		As of September 30, 2017	As of December 31, 2016		As of September 30, 2017	As of December 31, 2016
Commodity and foreign currency	<i>Accounts receivable, net</i>	\$ 14	\$ 31	<i>Accounts payable and accrued liabilities</i>	\$ 28	\$ 25
Commodity, foreign currency, and interest rate contracts	<i>Other assets</i>	7	8	<i>Non-current liabilities</i>	7	2
Total		\$ 21	\$ 39		\$ 35	\$ 27

At September 30, 2017, the Company had outstanding futures and option contracts that hedged the forecasted purchase of approximately 65 million bushels of corn and 20 million pounds of soybean oil. The Company is unable to directly hedge price risk related to co-product sales; however, it occasionally enters into hedges of soybean oil (a competing product to corn oil) in order to mitigate the price risk of corn oil sales. The Company also had outstanding swap and option contracts that hedged the forecasted purchase of approximately 21 million mmbtu's of natural gas at September 30, 2017. Additionally at September 30, 2017, the Company had outstanding ethanol futures contracts that hedged the forecasted sale of approximately 8 million gallons of ethanol.

Additional information relating to the Company's derivative instruments is presented below:

Derivatives in Cash-Flow Hedging Relationships (in millions, pre-tax)	Amount of Gains (Losses) Recognized in OCI		Location of Gains (Losses) Reclassified from AOCI into Income	Amount of Gains (Losses) Reclassified from AOCI into Income	
	Three Months Ended September 30, 2017	Three Months Ended September 30, 2016		Three Months Ended September 30, 2017	Three Months Ended September 30, 2016
	Commodity contracts	\$ (18)		\$ (27)	<i>Cost of sales</i>
Foreign currency contracts	2	—	<i>Net sales/Cost of sales</i>	1	—
Interest rate contracts	—	—	<i>Financing costs, net</i>	—	(1)
Total	\$ (16)	\$ (27)		\$ 1	\$ (6)

Derivatives in Cash-Flow Hedging Relationships (in millions, pre-tax)	Amount of Gains (Losses) Recognized in OCI		Location of Gains (Losses) Reclassified from AOCI into Income	Amount of Gains (Losses) Reclassified from AOCI into Income	
	Nine Months Ended September 30, 2017	Nine Months Ended September 30, 2016		Nine Months Ended September 30, 2017	Nine Months Ended September 30, 2016
	Commodity contracts	\$ (7)		\$ (25)	<i>Cost of sales</i>
Foreign currency contracts	3	1	<i>Net sales/Cost of sales</i>	1	(1)
Interest rate contracts	—	—	<i>Financing costs, net</i>	(1)	(1)
Total	\$ (4)	\$ (24)		\$ (1)	\$ (27)

At September 30, 2017, AOCI included \$5 million of losses (net of income taxes of \$3 million) on commodities-related derivative instruments designated as cash-flow hedges that are expected to be reclassified into earnings during the next 12 months. The Company expects the losses to be offset by changes in the underlying commodities costs. The Company also has \$1 million of losses on settled T-Locks (net of income taxes of \$1 million) recorded in AOCI at September 30, 2017, which are expected to be reclassified into earnings during the next 12 months. Additionally, at September 30, 2017, AOCI included an insignificant amount of losses related to foreign currency hedges that are expected to be reclassified into earnings during the next 12 months.

Presented below are the fair values of the Company's financial instruments and derivatives for the periods presented:

(in millions)	As of September 30, 2017				As of December 31, 2016			
	Total	Level 1 (a)	Level 2 (b)	Level 3 (c)	Total	Level 1 (a)	Level 2 (b)	Level 3 (c)
Available for sale securities	\$ 9	\$ 9	\$ —	\$ —	\$ 7	\$ 7	\$ —	\$ —
Derivative assets	21	4	17	—	39	6	33	—
Derivative liabilities	35	9	26	—	27	11	16	—
Long-term debt	1,832	—	1,832	—	1,929	—	1,929	—

- (a) *Level 1 inputs consist of quoted prices (unadjusted) in active markets for identical assets or liabilities.*
(b) *Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Level 2 inputs are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability or can be derived principally from or corroborated by observable market data.*
(c) *Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.*

The carrying values of cash equivalents, short-term investments, accounts receivable, accounts payable and short-term borrowings approximate fair values. Commodity futures, options and swap contracts are recognized at fair value. Foreign currency forward contracts, swaps and options are also recognized at fair value. The fair value of the Company's long-term debt is estimated based on quotations of major securities dealers who are market makers in the securities. At September 30, 2017, the carrying value and fair value of the Company's long-term debt were \$1,731 million and \$1,832 million, respectively.

7. Share-Based Compensation

Stock Options: Under the Company's stock incentive plan, stock options are granted at exercise prices that equal the market value of the underlying common stock on the date of grant. The options have a 10-year term and are exercisable upon vesting, which occurs over a three-year period at the anniversary dates of the date of grant. Compensation expense is generally recognized on a straight-line basis for all awards over the employee's vesting period or over a one-year required service period for certain retirement eligible executive level employees. The Company estimates a forfeiture rate at the time of grant and updates the estimate throughout the vesting of the stock options within the amount of compensation costs recognized in each period.

The Company granted non-qualified options to purchase 278 thousand shares and 329 thousand shares during the nine months ended September 30, 2017 and 2016, respectively. The fair value of each option grant was estimated using the Black-Scholes option-pricing model with the following assumptions:

	For the Nine Months Ended	
	September 30,	
	2017	2016
Expected life (in years)	5.5	5.5
Risk-free interest rate	1.93 %	1.36 %
Expected volatility	22.50 %	23.40 %
Expected dividend yield	1.68 %	1.80 %

The expected life of options represents the weighted average period of time that options granted are expected to be outstanding giving consideration to vesting schedules and the Company's historical exercise patterns. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the grant date for the period corresponding to the expected life of the options. Expected volatility is based on historical volatilities of the Company's common stock. Dividend yields are based on current dividend payments.

Stock option activity for the nine months ended September 30, 2017 was as follows:

	Number of Options (in thousands)	Weighted Average Exercise Price per Share	Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (in millions)
Outstanding as of December 31, 2016	2,281	\$ 61.39	5.93	\$ 145
Granted	278	117.65		
Exercised	(299)	46.10		
Cancelled	(21)	87.50		
Outstanding as of September 30, 2017	2,239	\$ 70.17	5.94	\$ 113
Exercisable as of September 30, 2017	1,671	\$ 58.04	5.33	\$ 105

For the nine months ended September 30, 2017, cash received from the exercise of stock options was \$14 million. At September 30, 2017, the total remaining unrecognized compensation cost related to stock options was \$5 million, which will be amortized over a weighted average period of approximately 1.4 years.

Additional information pertaining to stock option activity is as follows:

(dollars in millions, except per share)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Weighted average grant date fair value of stock options granted (per share)	\$ —	\$ —	\$ 23.90	\$ 18.73
Total intrinsic value of stock options exercised	11	21	23	45

Restricted Stock Units: The Company has granted restricted stock units (“RSUs”) to certain key employees. The RSUs are subject to cliff vesting, generally after three years provided the employee remains in the service of the Company. Compensation expense is generally recognized on a straight-line basis for all awards over the employee’s vesting period or over a one-year required service period for certain retirement eligible executive level employees. The Company estimates a forfeiture rate at the time of grant and updates the estimate throughout the vesting of the RSUs within the amount of compensation costs recognized in each period. The fair value of the RSUs is determined based upon the number of shares granted and the quoted market price of the Company’s common stock at the date of the grant.

The following table summarizes RSU activity for the nine months ended September 30, 2017:

(RSUs in thousands)	Number of RSUs	Weighted Average Fair Value per Share
Non-vested as of December 31, 2016	429	\$ 81.04
Granted	121	119.24
Vested	(148)	64.94
Cancelled	(13)	93.70
Non-vested as of September 30, 2017	389	\$ 99.77

At September 30, 2017, the total remaining unrecognized compensation cost related to RSUs was \$17 million, which will be amortized over a weighted average period of approximately 1.8 years.

Performance Shares: The Company has a long-term incentive plan for senior management in the form of performance shares. The ultimate payments for performance shares awarded and vested will be based solely on the Company’s stock performance as compared to the stock performance of its peer group. The number of shares that ultimately vest can range from zero to 200 percent of the awarded grant depending on the Company’s stock performance as compared to the stock performance of the peer group. The share award vesting will be calculated at the end of the three-year period and are subject to approval by management and the Compensation Committee. Compensation expense is based on the fair value of the performance shares at the grant date, established using a Monte Carlo simulation model. The total compensation expense for these awards is amortized over a three-year graded vesting schedule.

For the nine months ended September 30, 2017, the Company awarded 38 thousand share units at a weighted average fair value of \$114.08 per share unit.

The 2014 performance share award vested in the first quarter of 2017, achieving a 200 percent pay out of the grant, or 115 thousand total vested shares. There were no performance share cancellations during the nine months ended September 30, 2017.

As of September 30, 2017, the unrecognized compensation cost related to these awards was \$4 million, which will be amortized over the remaining requisite service periods of 1.8 years.

The following table summarizes the components of the Company's share-based compensation expense:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Stock options:				
Pre-tax compensation expense	\$ 2	\$ 2	\$ 6	\$ 7
Income tax benefit	(1)	(1)	(2)	(3)
Stock option expense, net of income taxes	1	1	4	4
RSUs:				
Pre-tax compensation expense	4	3	10	9
Income tax benefit	(2)	(1)	(4)	(3)
RSUs, net of income taxes	2	2	6	6
Performance shares and other share-based awards:				
Pre-tax compensation expense	1	2	4	5
Income tax benefit	(1)	(1)	(2)	(2)
Performance shares and other share-based compensation expense, net of income taxes	—	1	2	3
Total share-based compensation:				
Pre-tax compensation expense	7	7	20	21
Income tax benefit	(4)	(3)	(8)	(8)
Total share-based compensation expense, net of income taxes	\$ 3	\$ 4	\$ 12	\$ 13

8. Net Periodic Pension and Postretirement Benefit Costs

For detailed information about the Company's pension and postretirement benefit plans, please refer to Note 10 of the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

The following table sets forth the components of net periodic benefit cost of the U.S. and non-U.S. defined benefit pension plans for the periods presented:

(in millions)	Three Months Ended September 30,				Nine Months Ended September 30,			
	U.S. Plans		Non-U.S. Plans		U.S. Plans		Non-U.S. Plans	
	2017	2016	2017	2016	2017	2016	2017	2016
Service cost	\$ 1	\$ 2	\$ 1	\$ 1	\$ 4	\$ 5	\$ 3	\$ 2
Interest cost	3	3	3	3	9	10	8	8
Expected return on plan assets	(5)	(5)	(3)	(3)	(15)	(15)	(8)	(8)
Amortization of actuarial loss	—	—	—	—	—	—	1	1
Settlement loss	—	—	—	—	—	—	—	2
Net periodic benefit cost	\$ (1)	\$ —	\$ 1	\$ 1	\$ (2)	\$ —	\$ 4	\$ 5

The Company currently anticipates that it will make approximately \$5 million in cash contributions to its pension plans in 2017, consisting of \$4 million to its non-U.S. pension plans and \$1 million to its U.S. pension plans. For the nine

months ended September 30, 2017, cash contributions of approximately \$3 million were made to the non-U.S. plans and \$1 million to the U.S. plans.

The following table sets forth the components of net postretirement benefit cost for the periods presented:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Service cost	\$ 1	\$ —	\$ 1	\$ 1
Interest cost	—	1	2	2
Amortization of prior service credit	—	(1)	(2)	(3)
Net periodic benefit cost	\$ 1	\$ —	\$ 1	\$ —

9. Earnings per Common Share

The following table provides the computation of basic and diluted earnings per common share ("EPS") for the periods presented:

(in millions, except per share amounts)	Three Months Ended September 30, 2017			Three Months Ended September 30, 2016		
	Net Income Available to Ingression	Weighted Average Shares	Per Share Amount	Net Income Available to Ingression	Weighted Average Shares	Per Share Amount
Basic EPS	\$ 166	71.9	\$ 2.31	\$ 143	72.5	\$ 1.98
Effect of Dilutive Securities:						
Incremental shares from assumed exercise of dilutive stock options and vesting of dilutive RSUs and other awards		1.4			1.8	
Diluted EPS	\$ 166	73.3	\$ 2.26	\$ 143	74.3	\$ 1.93

(in millions, except per share amounts)	Nine Months Ended September 30, 2017			Nine Months Ended September 30, 2016		
	Net Income Available to Ingression	Weighted Average Shares	Per Share Amount	Net Income Available to Ingression	Weighted Average Shares	Per Share Amount
Basic EPS	\$ 420	72.0	\$ 5.83	\$ 391	72.2	\$ 5.42
Effect of Dilutive Securities:						
Incremental shares from assumed exercise of dilutive stock options and vesting of dilutive RSUs and other awards		1.4			1.8	
Diluted EPS	\$ 420	73.4	\$ 5.72	\$ 391	74.0	\$ 5.29

For the three and nine months ended September 30, 2017, approximately 0.3 million and 0.3 million share-based awards of common stock, respectively, were excluded from the calculation of diluted EPS as the impact of their inclusion would have been anti-dilutive. For both the three and nine months ended September 30, 2016, the number of share-based awards of common stock excluded from the calculation of diluted EPS was not material.

10. Inventories

Inventories are summarized as follows:

<u>(in millions)</u>	<u>As of September 30,</u> <u>2017</u>	<u>As of December 31,</u> <u>2016</u>
Finished and in process	\$ 497	\$ 478
Raw materials	274	260
Manufacturing supplies and other	54	51
Total inventories	<u>\$ 825</u>	<u>\$ 789</u>

11. Debt

As of September 30, 2017 and December 31, 2016, the Company's total debt consisted of the following:

<u>(in millions)</u>	<u>As of September 30,</u> <u>2017</u>	<u>As of December 31,</u> <u>2016</u>
3.2% senior notes due October 1, 2026	\$ 496	\$ 496
4.625% senior notes due November 1, 2020	398	398
1.8% senior notes due September 25, 2017	—	299
6.625% senior notes due April 15, 2037	254	254
6.0% senior notes due April 15, 2017	—	200
5.62% senior notes due March 25, 2020	200	200
Term loan credit agreement due April 25, 2019	380	—
Revolving credit facility	—	—
Fair value adjustment related to hedged fixed rate debt instruments	3	3
Long-term debt	<u>\$ 1,731</u>	<u>\$ 1,850</u>
Short-term borrowings	153	106
Total debt	<u>\$ 1,884</u>	<u>\$ 1,956</u>

The \$200 million of 6.0 percent senior notes due April 15, 2017 were refinanced with borrowings under the revolving credit facility in April 2017.

On August 18, 2017, the Company entered into a new Term Loan Credit Agreement ("Term Loan") to establish a senior unsecured term loan credit facility. Under the Term Loan, the Company is allowed three borrowings in an amount of up to \$500 million total. The Term Loan matures 18 months from the date of the final borrowing. As of September 30, 2017, the Company had initiated two borrowings under the Term Loan totaling \$380 million. The proceeds were used to refinance \$300 million of 1.8 percent senior notes due September 25, 2017 and pay down borrowings outstanding on the revolving credit facility. On October 25, 2017, the Company initiated its third and final borrowing under the Term Loan of \$40 million, bringing the total outstanding Term Loan to \$420 million, due April 25, 2019.

All borrowings under the term loan facility will bear interest at a variable annual rate based on the LIBOR or base rate, at the Company's election, subject to the terms and conditions thereof, plus, in each case, an applicable margin. The Term Loan Credit Agreement contains customary representations, warranties, covenants, events of default, terms and conditions, including limitations on liens, incurrence of debt, mergers and significant asset dispositions. The Company must also comply with a leverage ratio and interest coverage ratio. The occurrence of an event of default under the Term Loan Credit Agreement could result in all loans and other obligations being declared due and payable and the term loan credit facility being terminated.

12. Accumulated Other Comprehensive Loss

The following is a summary of net changes in accumulated other comprehensive loss by component and net of tax for the three and nine months ended September 30, 2017 and 2016:

(in millions)	Cumulative Translation Adjustment	Deferred Gain (Loss) on Hedging Activities	Pension and Postretirement Adjustment	Unrealized Gain on Investment	Accumulated Other Comprehensive Loss
Balance, December 31, 2016	\$ (1,008)	\$ (7)	\$ (56)	\$ —	\$ (1,071)
Other comprehensive income (loss) before reclassification adjustments	62	(4)	1	1	60
Amount reclassified from accumulated OCI	—	1	(1)	—	—
Tax benefit	—	2	—	—	2
Net other comprehensive income (loss)	62	(1)	—	1	62
Balance, September 30, 2017	\$ (946)	\$ (8)	\$ (56)	\$ 1	\$ (1,009)

(in millions)	Cumulative Translation Adjustment	Deferred Gain (Loss) on Hedging Activities	Pension and Postretirement Adjustment	Unrealized Loss on Investment	Accumulated Other Comprehensive Loss
Balance, December 31, 2015	\$ (1,025)	\$ (29)	\$ (47)	\$ (1)	\$ (1,102)
Other comprehensive income (loss) before reclassification adjustments	78	(24)	(5)	—	49
Amount reclassified from accumulated OCI	—	27	1	—	28
Tax benefit	—	—	1	—	1
Net other comprehensive income (loss)	78	3	(3)	—	78
Balance, September 30, 2016	\$ (947)	\$ (26)	\$ (50)	\$ (1)	\$ (1,024)

The following table provides detail pertaining to reclassifications from AOCI into net income for the periods presented:

Details about AOCI Components (in millions)	Amount Reclassified from AOCI		Amount Reclassified from AOCI		Affected Line Item in Condensed Consolidated Statements of Income
	Three Months Ended September 30, 2017	2016	2017	2016	
Gains (losses) on cash-flow hedges:					
Commodity contracts	\$ —	\$ (6)	\$ (1)	\$ (25)	Cost of sales
Foreign currency contracts	1	—	1	(1)	Net sales/Cost of sales
Interest rate contracts	—	—	(1)	(1)	Financing costs, net
Gains (losses) related to pension and other postretirement obligations	—	—	1	(1)	(a)
Total before-tax reclassifications	\$ 1	\$ (6)	\$ —	\$ (28)	
Tax (provision) benefit	(1)	2	—	9	
Total after-tax reclassifications	\$ —	\$ (4)	\$ —	\$ (19)	

(a) This component is included in the computation of net periodic benefit cost and affects both cost of sales and operating expenses on the Condensed Consolidated Statements of Income.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a major supplier of high-quality food and industrial ingredient solutions to customers around the world. We have 44 manufacturing plants located in North America, South America, Asia Pacific and Europe, the Middle East and Africa ("EMEA"), and we manage and operate our businesses at a regional level. We believe this approach provides us with a unique understanding of the cultures and product requirements in each of the geographic markets in which we operate, bringing added value to our customers. Our ingredients are used by customers in the food, beverage, animal feed, paper and corrugating, and brewing industries, among others.

Our Strategic Blueprint continues to guide our decision-making and strategic choices with an emphasis on value-added ingredient solutions for our customers. The foundation of our Strategic Blueprint is operating excellence, which includes our focus on safety, quality and continuous improvement. We see growth opportunities in three areas. First is organic growth as we work to expand our current business. Second, we are focused on broadening our ingredient portfolio with on-trend products through internal and external business development. Finally, we look for growth from geographic expansion as we pursue extension of our reach to new locations. The ultimate goal of these strategies and actions is to deliver increased shareholder value.

We had a solid third quarter and nine months ended September 30, 2017 as operating income, net income and diluted earnings per common share grew from the comparable 2016 periods. Our earnings growth was driven principally by continued strong operating results in our North America segment during the year, and partially offset by lower earnings in our South America segment due to continued difficult macroeconomic conditions and increased costs in Argentina. The Company implemented an organizational restructuring effort in Argentina during the first quarter of 2017 to achieve a more competitive cost position in the region. We notified the local labor union of a planned reduction in workforce, which resulted in a strike by the labor union and an interruption of manufacturing activities during the second quarter of 2017. We finalized a new labor agreement with the labor union in the second quarter, ending the strike on June 1, 2017. The Company recorded total pre-tax employee-related severance and other costs in Argentina of \$17 million for the nine months ended September 30, 2017, related to the workforce reduction. Operating income also grew in our EMEA and Asia Pacific segments.

During the second quarter of 2017, the Company announced a Finance Transformation initiative in the North America for the U.S. and Canada businesses to strengthen organizational capabilities and drive efficiencies to support the growth strategy of the Company. The Company recorded \$4 million of employee-related severance and other restructuring costs during the third quarter of 2017 related to this initiative. We expect to incur between \$3 million and \$5 million of additional employee-related severance and other costs in the fourth quarter of 2017 and between \$1 million and \$2 million in 2018 related to this initiative.

Our cash provided by operating activities decreased to \$524 million for the nine months ended September 30, 2017 from \$542 million in the year-earlier period, driven by an increase of cash outflow in working capital primarily due to the outflow in accounts payable and accrued liabilities for the \$63 million payment made to the Internal Revenue Service ("IRS") in the third quarter of 2017 to complete the double taxation settlement between the U.S. and Canada. This outflow was partially offset by increased earnings in the period. Our cash used for financing activities increased during the nine months ended September 30, 2017, primarily due to the repurchase of approximately one million shares of our common stock in open market transactions for \$123 million during the first quarter of 2017. During the second and third quarters, we also refinanced a total of \$500 million of senior notes with borrowings under our revolving credit facility and a new term loan entered into during the third quarter.

On March 9, 2017, the Company completed its acquisition of Sun Flour Industry Co., Ltd. ("Sun Flour") in Thailand for \$18 million. Upon closing, the Company paid \$13 million in cash and recorded \$5 million in accrued liabilities for deferred payments due to the previous owner. The acquisition of Sun Flour adds a fourth manufacturing facility to our operations in Thailand. Sun Flour produces rice-based ingredients used primarily in the food industry. This transaction will enhance our global supply chain and leverage other capital investments that we have made in Thailand to grow our specialty ingredients and service customers around the world. The acquisition did not have a material impact on our financial condition, results of operations or cash flows in the third quarter of 2017.

Looking ahead, we anticipate that our full year 2017 operating income and net income will grow compared to 2016. In North America, we expect full year operating income to increase driven by improved product mix and margins. In South America, we believe that full year operating income will be down compared to 2016 driven by temporary higher-than-normal costs related to the interruption of manufacturing activities in Argentina and the restructuring charges incurred to improve the cost position of the operation in Argentina. We will continue to focus on network optimization and cost improvement in this segment for the remainder of the year. In the longer term, we believe that the underlying business demographics for our South American segment are positive. We expect full-year operating income to grow in EMEA principally driven by improved price/product mix from our specialty ingredient product portfolio, volume growth and effective cost control. In Asia Pacific, we expect full-year operating income to increase, driven by volume growth and effective cost control.

Results of Operations

We have significant operations in four reporting segments: North America, South America, Asia Pacific and EMEA. For most of our foreign subsidiaries, the local foreign currency is the functional currency. Accordingly, revenues and expenses denominated in the functional currencies of these subsidiaries are translated into U.S. dollars at the applicable average exchange rates for the period. Fluctuations in foreign currency exchange rates affect the U.S. dollar amounts of our foreign subsidiaries' revenues and expenses. The impact of foreign currency exchange rate changes, where significant, is provided below.

We acquired Shandong Huanong Specialty Corn Development Co., Ltd. ("Shandong Huanong"), TIC Gums Incorporated ("TIC Gums") and Sun Flour on November 29, 2016, December 29, 2016 and March 9, 2017, respectively. The results of the acquired businesses are included in our consolidated financial results from the respective acquisition dates forward. While we identify fluctuations due to the acquisitions, our discussion below also addresses results of operations absent the impact of the acquisitions and the results of the acquired businesses, where appropriate, to provide a more comparable and meaningful analysis.

For the Three and Nine Months Ended September 30, 2017 With Comparatives for the Three and Nine Months Ended September 30, 2016

Net Income attributable to Ingression. Net income for the third quarter of 2017 increased by 16 percent to \$166 million, or \$2.26 per diluted common share, from \$143 million, or \$1.93 per diluted common share, a year ago. Net income for the nine months ended September 30, 2017 increased by 7 percent to \$420 million, or \$5.72 per diluted common share, from \$391 million, or \$5.29 per diluted common share, in the nine months ended September 30, 2016.

Results for the third quarter of 2017 include a tax benefit of \$10 million (\$0.14 per diluted common share) due to a deductible foreign exchange loss resulting from the tax settlement between the U.S. and Canada, partially offset by after-tax costs of \$5 million (\$0.07 per diluted common share) of net restructuring costs primarily associated with the Finance Transformation initiative, and \$1 million (\$0.01 per diluted common share) associated with the integration of acquired operations. Results for the third quarter of 2016 include after-tax costs of \$2 million (\$0.02 per diluted common share) consisting of employee-related severance and other costs associated with the execution of global information technology ("IT") outsourcing contracts.

Results for the nine months ended September 30, 2017 include after-tax costs of \$21 million (\$0.29 per diluted common share) of net restructuring costs primarily associated with our restructuring effort in Argentina and employee-related severance and other costs associated with the Finance Transformation initiative, \$6 million (\$0.08 per diluted common share) related to the flow-through of costs primarily associated with the sale of TIC Gums inventory that was adjusted to fair value at the acquisition date in accordance with business combination accounting rules, and \$2 million (\$0.03 per diluted common share) associated with the integration of acquired operations, partially offset by a tax benefit of \$10 million (\$0.14 per diluted common share) due to a deductible foreign exchange loss resulting from the tax settlement between the U.S. and Canada. Results for the nine months ended September 30, 2016 include after-tax costs of \$12 million (\$0.16 per diluted common share) consisting of employee-related severance and other costs associated with the execution of IT outsourcing contracts, employee-related severance costs associated with our optimization initiative in South America, and costs attributable to the 2015 sale of the Port Colborne plant. Additionally, our results for the nine months ended September 30, 2016 include \$1 million (\$0.01 per diluted common share) associated with the integration of acquired operations.

Without the acquisition and integration, restructuring, inventory markup, and tax settlement, net income for the three and nine months ended September 30, 2017 would have grown 12 percent and 9 percent, respectively, from the comparable prior periods, while diluted earnings per share would have grown 13 percent and 10 percent, respectively, from the comparable prior periods. These increases for the three and nine months ended September 30, 2017 primarily reflect continued strong operating results in our North America segment during the year, partially offset by lower earnings in our South America segment due to continued difficult macroeconomic conditions and increased costs in Argentina. The increase for the nine months ended September 30, 2017 was partially offset by higher net financing costs.

Net Sales. Net sales for the third quarter of 2017 were flat from \$1.49 billion a year ago. Volume growth of 2 percent, which was comprised of 2 percent growth from recent acquisitions, was offset by a 2 percent decrease in price/product mix driven by lower raw material costs. Net sales for the nine months ended September 30, 2017 increased 2 percent to \$4.40 billion from \$4.30 billion for the nine months ended September 30, 2016. The increase was driven by volume growth of 3 percent, which was comprised of 2 percent growth from recent acquisitions and 1 percent increase in organic volume growth, and favorable currency translation of 1 percent reflecting a stronger Brazilian real, partially offset by a 2 percent decrease in price/product mix.

North America's net sales for the third quarter of 2017 were relatively flat at \$903 million from \$899 million a year ago. Volume growth of 1 percent, which was comprised of 4 percent growth from the TIC Gums acquisition and a 3 percent decline in organic volume due largely to customer shifts in the brewing industry in Mexico and supply chain interruptions caused by natural disasters that affected both our customers and us. This was offset by a 1 percent decrease in price/product mix driven by lower raw material costs. North America's net sales for the nine months ended September 30, 2017 increased 2 percent to \$2.69 billion from \$2.63 billion for the nine months ended September 30, 2016. This increase was driven by volume growth of 3 percent primarily from the TIC Gums acquisition, partially offset by a 1 percent decrease in price/product mix driven by lower raw material costs.

South America's net sales for third quarter of 2017 decreased 7 percent to \$257 million from \$276 million a year ago. This decrease was primarily driven by an 8 percent decrease in price/product mix due to lower raw material costs in Brazil and unfavorable currency translation of 2 percent reflecting a weaker Argentine peso in the quarter, partially offset by a volume increase of 3 percent. South America's net sales for the nine months ended September 30, 2017 increased 1 percent to \$740 million from \$731 million for the nine months ended September 30, 2016. This increase was driven by favorable currency translation of 5 percent primarily reflecting a stronger Brazilian real, partially offset by a 3 percent decrease in price/product mix due to lower raw material costs in Brazil and a volume decrease of 1 percent, primarily due to difficult macroeconomic conditions and the interruption of manufacturing activities in Argentina.

Asia Pacific's net sales for the third quarter of 2017 increased 2 percent to \$189 million from \$185 million a year ago. This increase was driven by volume growth of 8 percent, which was comprised of 7 percent organic volume growth and 1 percent growth from our recent acquisitions in the region, partially offset by a 6 percent decrease in price/product mix due to core customer mix diversification and pass through of lower raw material costs. Asia Pacific's net sales for the nine months ended September 30, 2017 increased 4 percent to \$555 million from \$534 million for the nine months ended September 30, 2016. This increase was driven by volume growth of 9 percent, which was comprised of 8 percent organic volume growth and 1 percent volume increase from our recent acquisitions in the region, and favorable currency translation of 1 percent primarily reflecting a stronger Korean won. The increase in volume was partially offset by a 6 percent decrease in price/product mix due to core customer mix diversification.

EMEA's net sales for the third quarter of 2017 increased 5 percent to \$136 million from \$129 million a year ago. This increase was driven by a 2 percent increase in price/product mix, favorable currency translation of 2 percent primarily reflecting a stronger Euro in the quarter, and a volume increase of 1 percent. EMEA's net sales for the nine months ended September 30, 2017 increased 1 percent to \$411 million from \$405 million a year ago. This increase was driven by a 2 percent increase in price/product mix and volume growth of 1 percent, partially offset by unfavorable currency translation of 2 percent, primarily reflecting a weaker British Pound sterling.

Cost of Sales and Operating Expenses. Cost of sales for the third quarter of 2017 decreased 2 percent to \$1.10 billion from \$1.12 billion a year ago. Our gross profit margin was 26 percent for the third quarter of 2017, up from 25 percent last year. The decline in cost of sales and improvement in gross profit margin are primarily driven by overall lower raw material costs and improved operational efficiencies. Operating expenses for the third quarter of 2017 increased to \$152 million from \$149 million last year. This increase was primarily driven by the incremental operating expenses of

acquired operations. Operating expenses, as a percentage of gross profit, were 39 percent for the third quarter of 2017 as compared to 40 percent a year ago.

Cost of sales for the nine months ended September 30, 2017 increased 1 percent to \$3.28 billion from \$3.24 billion a year ago. This increase was primarily driven by an increase of 2 percent in net sales volume. Our gross profit margin was 25 percent for the nine months ended September 30, 2017, flat with 25 percent last year. The gross profit margin remained flat due to higher operating costs as a result of the temporary manufacturing interruption in Argentina offset by overall lower raw material cost and improved operational efficiencies in North America. Operating expenses for the nine months ended September 30, 2017 increased to \$458 million from \$431 million last year. This increase was primarily driven by the incremental operating expenses of acquired operations. Operating expenses, as a percentage of gross profit, were 41 percent for the third quarter of 2017 as compared to 41 percent a year ago.

Operating Income. Third quarter of 2017 operating income increased 5 percent to \$233 million from \$221 million a year ago. Operating income for the third quarter of 2017 includes pre-tax net restructuring costs of \$7 million consisting of \$4 million of other restructuring costs associated with a Finance Transformation initiative and \$3 million of other pre-tax restructuring costs including employee-related severance costs in North America. Additionally, the third quarter results include \$1 million of costs associated with the integration of acquired operations. Operating income for third quarter of 2016 includes pre-tax costs of \$2 million consisting of employee-related severance and other costs associated with the execution of IT outsourcing contracts. Without the restructuring and acquisition-related charges, our third quarter of 2017 operating income would have grown 8 percent from the third quarter of 2016. The increase primarily reflects operating income growth in North America. Currency translation had a net favorable impact of \$2 million, reflecting the movements of the Canadian dollar, Brazilian real, and Argentine peso during the quarter.

Operating income for the nine months ended September 30, 2017 increased 3 percent to \$639 million from \$619 million for the nine months ended September 30, 2016. Operating income for the nine months ended September 30, 2017 includes pre-tax net restructuring costs of \$23 million consisting of \$17 million of employee-related severance and other costs associated with our restructuring effort in Argentina, \$5 million of other restructuring costs associated with a Finance Transformation initiative, and \$1 million of other pre-tax restructuring charges that including employee-related severance costs in North America and a refinement of estimates for prior year restructuring activities. Additionally, the nine months ended September 30, 2017 results include \$9 million of costs primarily associated with the TIC Gums inventory that was adjusted to fair value at the acquisition date, and \$3 million of costs associated with the integration of acquired operations. Operating income for the nine months ended September 30, 2016 includes pre-tax costs of \$15 million consisting of employee-related severance and other costs associated with the execution of IT outsourcing contracts and \$2 million of costs associated with the integration of acquired operations. Without the restructuring and acquisition-related charges, our operating income for the nine months ended September 30, 2017 would have grown 6 percent from the prior year period. The increase primarily reflects operating income growth in North America, partially offset by an operating income decrease in South America. Currency translation had a net favorable impact of \$8 million, reflecting the movements of the Brazilian real, Argentine peso, and Canadian dollar.

North America's third quarter of 2017 operating income increased 9 percent to \$179 million from \$164 million a year ago. This increase was primarily driven by net margin improvement from favorable raw material costs and operational efficiencies, partially offset by a decrease in price/product mix. North America's operating income for the nine months ended September 30, 2017 increased 10 percent to \$520 million from \$474 million for the nine months ended September 30, 2016.

This increase was primarily driven by net margin improvement from favorable raw material costs and operational efficiencies, in addition to organic and acquisition-related volume growth compared to the prior period, and partially offset by a decrease in price/product mix.

South America's third quarter 2017 operating income decreased 4 percent to \$26 million from \$27 million a year ago. This decrease was primarily driven by a decrease in price/product mix and partially offset by a margin improvement due to favorable raw material costs. South America's operating income for the nine months ended September 30, 2017 decreased 25 percent to \$44 million from \$59 million for the nine months ended September 30, 2016. This decrease was primarily driven by difficult macroeconomic conditions in the region, interruption of manufacturing activities resulting in temporary higher operating costs in Argentina during the second quarter, and unfavorable price/product mix. This decrease was partially offset by a net margin improvement from favorable raw material costs and an \$8 million favorable currency translation impact reflecting the movements of the Brazilian real and Argentine peso.

Asia Pacific's third quarter 2017 operating income was flat from \$29 million a year ago. Volume growth and improved operational efficiencies were offset by a decrease in price/product mix due to core customer mix diversification. Asia Pacific's operating income for the nine months ended September 30, 2017 increased 1 percent to \$88 million from \$87 million for the nine months ended September 30, 2016. This increase was driven by volume growth, improved operational efficiencies, and a net margin improvement due to favorable raw material costs, offset by a decrease in price/product mix due to core customer mix diversification.

EMEA's third quarter 2017 operating income increased 4 percent to \$26 million from \$25 million a year ago. This increase was primarily driven by favorable price/product mix and volume growth during the period, partially offset by increased operating costs. EMEA's operating income for the nine months ended September 30, 2017 increased 4 percent to \$83 million from \$80 million for the nine months ended September 30, 2016. This increase was primarily driven by favorable price/product mix and volume growth, partially offset by increased operational costs and a net margin decrease due to unfavorable raw material costs.

Financing Costs, net. Financing costs for the third quarter of 2017 increased to \$16 million from \$15 million in the prior-year period. This increase was primarily driven by higher weighted average short-term borrowing costs and an increase in short-term borrowings.

Financing costs for the nine months ended September 30, 2017 increased to \$57 million from \$48 million for the nine months ended September 30, 2016. This increase was due to higher weighted average short-term borrowing costs and an increase in short-term borrowings. Additionally, an increase in foreign currency transaction losses contributed to the increase.

Provision for Income Taxes. Our effective income tax rate for the third quarter of 2017 decreased to 22.1 percent from 29.2 percent a year ago. The effective income tax rate for the nine months ended September 30, 2017 was 26.3 percent compared to 30.1 percent a year ago.

We use the U.S. dollar as the functional currency for our subsidiaries in Mexico. For the three and nine months ended September 30, 2017, the effective tax rates were reduced by 1.0 percent and 1.7 percent, respectively, due to the revaluation of the Mexican peso versus the U.S. dollar.

In addition, we increased the valuation allowance on the net deferred tax assets of a foreign subsidiary. As a result, for the three and nine months ended September 30, 2017, the effective tax rates were increased by 2.0 percent and 1.8 percent, respectively.

We had been pursuing relief from double taxation under the U.S.-Canada tax treaty for the years 2004-2013. During the fourth quarter of 2016, a tentative settlement was reached between the U.S. and Canada and, consequently, last year we established a net reserve of \$24 million, including interest thereon, recorded as a \$70 million liability and a \$46 million benefit. In the third quarter of 2017, the two countries finalized the agreement, which eliminated the double taxation, and we paid \$63 million to the IRS to settle the liability. As a result of that agreement, we are entitled to deduct a foreign exchange loss of \$10 million on our 2017 U.S. federal income tax return. For the three and nine months ended September 30, 2017, the effective tax rates were reduced by 4.9 percent and 1.8 percent, respectively, due to the foreign exchange loss deduction. The foreign exchange loss was not recognized in income before taxes because it arose from the terms of the agreement.

The above discrete tax items were partially offset by individually insignificant discrete items. Without these items, the rate for the three and nine months ended September 30, 2017 would have been approximately 27.3 percent and 28.1 percent, respectively.

Our effective income tax rates for the three and nine months ended September 30, 2016 were increased by 2.3 percent and 2.5 percent, respectively, due to the devaluation of the Mexican peso versus the U.S. dollar. The impact of the Mexican peso was partially offset by individually insignificant factors. Without these items, the rates for the three and nine months ended September 30, 2016 would have been approximately 27.4 percent and 28.3 percent, respectively.

Comprehensive Income Attributable to Ingredient. Comprehensive income for the third quarter of 2017 increased to \$186 million from \$138 million a year ago. The increase reflects an increase in net income, favorable variances due to losses resulting from cash-flow hedging activities, and favorable currency translation adjustments.

Comprehensive income for the nine months ended September 30, 2017 increased to \$482 million from \$459 million for the nine months ended September 30, 2016. This increase reflects an increase in net income, favorable variances due to losses resulting from cash-flow hedging activities, partially offset by unfavorable currency translation adjustments.

Liquidity and Capital Resources

Cash provided by operating activities for the nine months ended September 30, 2017 was \$524 million, as compared to \$542 million a year ago. The decrease in operating cash flow primarily reflects the changes in our working capital, partially offset by an increase in our net income.

Capital expenditures of \$222 million for the nine months ended September 30, 2017 are in line with our capital spending plan for the year. We anticipate that our capital expenditures will be approximately \$300 million to \$325 million for 2017. During the first quarter of 2017, we repurchased approximately 1 million shares of our common stock in open market transactions for \$123 million.

On August 18, 2017, the Company entered into a new Term Loan Credit Agreement (“Term Loan”) to establish a senior unsecured term loan credit facility. Under the Term Loan, the Company is allowed three borrowings in an amount of up to \$500 million total. The Term Loan matures 18 months from the date of the final borrowing. As of September 30, 2017, the Company had initiated two borrowings under the Term Loan totaling \$380 million. The proceeds were used to refinance \$300 million of 1.8 percent senior notes due September 25, 2017 and pay down borrowings outstanding on the revolving credit facility. On October 25, 2017, the Company initiated its third and final borrowing under the Term Loan of \$40 million, bringing the total outstanding Term Loan to \$420 million, due April 25, 2019. See also Note 11 of the Condensed Consolidated Financial Statements.

As of September 30, 2017, there were borrowings of \$380 million outstanding under the Term Loan Credit Agreement and no borrowings outstanding under the Revolving Credit Facility. In addition to the borrowing availability under the Revolving Credit Agreement, we have approximately \$493 million of unused operating lines of credit in the various foreign countries in which we operate.

As of September 30, 2017, we had total debt outstanding of \$1,884 million, compared to \$1,956 million at December 31, 2016. As of September 30, 2017 our total debt consists of the following:

(in millions)	As of September 30, 2017	
3.2% senior notes due October 1, 2026	\$	496
4.625% senior notes due November 1, 2020		398
6.625% senior notes due April 15, 2037		254
5.62% senior notes due March 25, 2020		200
Term loan credit agreement due April 25, 2019		380
Revolving credit facility		—
Fair value adjustment related to hedged fixed rate debt instruments		3
Long-term debt	\$	1,731
Short-term borrowings		153
Total debt	\$	<u>1,884</u>

The weighted average interest rate on our total indebtedness was approximately 4.1 percent for the nine months ended September 30, 2017, compared to 3.9 percent in the comparable prior-year period.

On September 15, 2017, our Board of Directors declared a quarterly cash dividend of \$0.60 per share of common stock. This dividend was paid on October 25, 2017 to stockholders of record at the close of business on October 2, 2017.

We currently expect that our available cash balances, future cash flow from operations, access to debt markets, and borrowing capacity under our credit facilities will provide us with sufficient liquidity to fund our anticipated capital expenditures, dividends and other investing and financing activities for the foreseeable future.

We have not provided federal and state income taxes on accumulated undistributed earnings of certain foreign subsidiaries because these earnings are considered to be permanently reinvested. It is not practicable to determine the amount of the unrecognized deferred tax liability related to the undistributed earnings. We do not anticipate the need to repatriate funds to the U.S. to satisfy domestic liquidity needs arising in the ordinary course of business, including liquidity needs associated with our domestic debt service requirements. Approximately \$484 million of the total \$505 million of cash and cash equivalents and short-term investments at September 30, 2017 was held by our operations outside of the U.S. We expect that available cash balances and credit facilities in the U.S., along with cash generated from operations and access to debt markets, will be sufficient to meet our operating and other cash needs for the foreseeable future.

Hedging

We are exposed to market risk stemming from changes in commodity prices (primarily corn and natural gas), foreign currency exchange rates and interest rates. In the normal course of business, we actively manage our exposure to these market risks by entering into various hedging transactions, authorized under established policies that place clear controls on these activities. These transactions utilize exchange-traded derivatives or over-the-counter derivatives with investment grade counterparties. Our hedging transactions may include, but are not limited to, a variety of derivative financial instruments such as commodity-related futures, options and swap contracts, forward currency-related contracts and options, interest rate swap agreements and Treasury lock agreements (“T-Locks”). See Note 6 of the Notes to the Condensed Consolidated Financial Statements for additional information.

Commodity Price Risk: Our principal use of derivative financial instruments is to manage commodity price risk in North America relating to anticipated purchases of corn and natural gas to be used in our manufacturing process. We periodically enter into futures, options and swap contracts for a portion of our anticipated corn and natural gas usage, generally over the following 12 to 24 months, in order to hedge price risk associated with fluctuations in market prices. We also enter into futures contracts to hedge price risk associated with fluctuations in the market price of ethanol. We are unable to directly hedge price risk related to co-product sales; however, we occasionally enter into hedges of soybean oil (a competing product to corn oil) in order to mitigate the price risk of corn oil sales. Unrealized gains and losses associated with marking our commodities-based derivative instruments to market are recorded as a component of other comprehensive income (“OCI”). At September 30, 2017, our accumulated other comprehensive loss account (“AOCI”) included \$5 million of losses, net of income taxes of \$4 million, related to these derivative instruments. It is anticipated that these losses will be reclassified into earnings during the next 12 months. We expect the losses to be offset by changes in the underlying commodities costs.

Foreign Currency Exchange Risk: Due to our global operations, including operations in many emerging markets, we are exposed to fluctuations in foreign currency exchange rates. As a result, we have exposure to translational foreign exchange risk when our foreign operations’ results are translated to U.S. dollars and to transactional foreign exchange risk when transactions not denominated in the functional currency of the operating unit are revalued. We primarily use derivative financial instruments such as foreign currency forward contracts, swaps and options to manage our foreign currency transactional exchange risk. At September 30, 2017, we had foreign currency forward sales contracts that are designated as fair value hedges with an aggregate notional amount of \$447 million and foreign currency forward purchase contracts with an aggregate notional amount of \$173 million that hedged transactional exposures.

We also have foreign currency derivative instruments that hedge certain foreign currency transactional exposures and are designated as cash-flow hedges. At September 30, 2017, AOCI included an insignificant amount of losses, net of income taxes, relating to these hedges.

We have significant operations in Argentina. We utilize the official exchange rate published by the Argentine government for re-measurement purposes. Due to exchange controls put in place by the Argentine government, a parallel market exists for exchanging Argentine pesos to U.S. dollars at rates less favorable than the official rate, although the difference in rates has decreased from past levels.

Interest Rate Risk: We occasionally use interest rate swaps and T-Locks to hedge our exposure to interest rate changes, to reduce the volatility of our financing costs, or to achieve a desired proportion of fixed versus floating rate debt, based on current and projected market conditions. We did not have any T-Locks outstanding as of September 30, 2017.

As of September 30, 2017, AOCI included \$3 million of losses (net of income taxes of \$2 million) related to settled T-Locks. These deferred losses are being amortized to financing costs over the terms of the senior notes with which

they are associated. It is anticipated that \$1 million of these losses (net of income taxes of \$1 million) will be reclassified into earnings during the next 12 months.

As of September 30, 2017, we have interest rate swap agreements that effectively convert the interest rates on \$200 million of our \$400 million of 4.625 percent senior notes due November 1, 2020, to variable rates. These swap agreements call for us to receive interest at the fixed coupon rate of the respective notes and to pay interest at a variable rate based on the six-month U.S. dollar LIBOR rate plus a spread. We have designated these interest rate swap agreements as hedges of the changes in fair value of the underlying debt obligations attributable to changes in interest rates and account for them as fair-value hedges. The fair value of these interest rate swap agreements was \$3 million at September 30, 2017 and is reflected in the Condensed Consolidated Balance Sheets within other assets, with an offsetting amount recorded in long-term debt to adjust the carrying amount of the hedged debt obligations.

Critical Accounting Policies and Estimates

Our critical accounting policies and estimates are described in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2016 Annual Report on Form 10-K. There have been no changes to our critical accounting policies and estimates during the nine months ended September 30, 2017.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains or may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends these forward-looking statements to be covered by the safe harbor provisions for such statements.

Forward-looking statements include, among other things, any statements regarding the Company's prospects or future financial condition, earnings, revenues, tax rates, capital expenditures, expenses or other financial items, any statements concerning the Company's prospects or future operations, including management's plans or strategies and objectives therefor and any assumptions, expectations or beliefs underlying the foregoing.

These statements can sometimes be identified by the use of forward looking words such as "may," "will," "should," "anticipate," "assume," "believe," "plan," "project," "estimate," "expect," "intend," "continue," "pro forma," "forecast," "outlook," "propels," "opportunities," "potential" or other similar expressions or the negative thereof. All statements other than statements of historical facts in this report or referred to or incorporated by reference in this report are "forward-looking statements."

These statements are based on current circumstances or expectations, but are subject to certain inherent risks and uncertainties, many of which are difficult to predict and are beyond our control. Although we believe our expectations reflected in these forward-looking statements are based on reasonable assumptions, stockholders are cautioned that no assurance can be given that our expectations will prove correct.

Actual results and developments may differ materially from the expectations expressed in or implied by these statements, based on various factors, including the effects of global economic conditions, including, particularly, continuation or worsening of the current economic, currency and political conditions in South America and economic conditions in Europe, and their impact on our sales volumes and pricing of our products, our ability to collect our receivables from customers and our ability to raise funds at reasonable rates; fluctuations in worldwide markets for corn and other commodities, and the associated risks of hedging against such fluctuations; fluctuations in the markets and prices for our co-products, particularly corn oil; fluctuations in aggregate industry supply and market demand; the behavior of financial markets, including foreign currency fluctuations and fluctuations in interest and exchange rates; volatility and turmoil in the capital markets; the commercial and consumer credit environment; general political, economic, business, market and weather conditions in the various geographic regions and countries in which we buy our raw materials or manufacture or sell our products; future financial performance of major industries which we serve, including, without limitation, the food and beverage, paper, corrugated and brewing industries; energy costs and availability, freight and shipping costs, and changes in regulatory controls regarding quotas, tariffs, duties, taxes and income tax rates, particularly United States tax reform; operating difficulties; availability of raw materials, including potato starch, tapioca, gum arabic, and the specific varieties of corn upon which our products are based; our ability to develop new products and services at a rate or of a quality sufficient to meet expectations; energy issues in Pakistan; boiler reliability; our ability to effectively

integrate and operate acquired businesses; our ability to achieve budgets and to realize expected synergies; our ability to complete planned maintenance and investment projects successfully and on budget; labor disputes; genetic and biotechnology issues; changing consumption preferences including those relating to high fructose corn syrup; increased competitive and/or customer pressure in the corn-refining industry; and the outbreak or continuation of serious communicable disease or hostilities including acts of terrorism. Factors relating to the acquisition of TIC Gums that could cause actual results and developments to differ from expectations include: the anticipated benefits of the acquisition, including synergies, may not be realized; and the integration of TIC Gum's operations with those of Ingredion may be materially delayed or may be more costly or difficult than expected.

Our forward-looking statements speak only as of the date on which they are made and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of the statement as a result of new information or future events or developments. If we do update or correct one or more of these statements, investors and others should not conclude that we will make additional updates or corrections. For a further description of these and other risks, see "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2016 and subsequent reports on Forms 10-Q and 8-K.

ITEM 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See the discussion set forth in Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk at pages 50 to 51 in our Annual Report on Form 10-K for the year ended December 31, 2016, for a discussion as to how we address risks with respect to interest rates, raw material and energy costs and foreign currencies. There have been no material changes in the information that would be provided with respect to those disclosures from December 31, 2016 to September 30, 2017.

ITEM 4

CONTROLS AND PROCEDURES

Our management, including our Chief Executive Officer and our Chief Financial Officer, performed an evaluation of the effectiveness of our disclosure controls and procedures as of September 30, 2017. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures (a) are effective in providing reasonable assurance that all information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, has been recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (b) are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

In the fourth quarter of 2016, we acquired Shandong Huanong Specialty Corn Development Co., Ltd. in Pingyuan County, Shandong Province, China ("Shandong Huanong") and TIC Gums Incorporated ("TIC Gums"). In the first quarter of 2017, we acquired Sun Flour Industry Co., Ltd. ("Sun Flour") in Thailand. We are currently in the process of evaluating and integrating the acquired operations, processes and internal controls. See Note 3 of the Notes to the Consolidated Financial Statements for additional information regarding the acquisitions. There have been no other changes in our internal control over financial reporting during the nine months ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1 LEGAL PROCEEDINGS

We are a party to a large number of labor claims relating to our Brazilian operations. We have reserved an aggregate of approximately \$5 million as of September 30, 2017 in respect of these claims. These labor claims primarily relate to dismissals, severance, health and safety, work schedules and salary adjustments.

We are currently subject to various other claims and suits arising in the ordinary course of business, including certain environmental proceedings and other commercial claims. We also routinely receive inquiries from regulators and other government authorities relating to various aspects of our business, including with respect to compliance with laws and regulations relating to the environment, and at any given time, we have matters at various stages of resolution with the applicable governmental authorities. The outcomes of these matters are not within our complete control and may not be known for prolonged periods of time. We do not believe that the results of currently known legal proceedings and inquires, even if unfavorable to us, will be material to us. There can be no assurance, however, that such claims, suits or investigations or those arising in the future, whether taken individually or in the aggregate, will not have a material adverse effect on our financial condition or results of operations.

ITEM 2 UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities:

<u>(shares in thousands)</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as part of Publicly Announced Plans or Programs</u>	<u>Maximum Number (or Approximate Dollar Value) of Shares that may yet be Purchased Under the Plans or Programs at end of period</u>
July 1 – July 31, 2017	—	—	—	3,702 shares
August 1 – August 31, 2017	—	—	—	3,702 shares
September 1 – September 30, 2017	—	—	—	3,702 shares
Total	—	—	—	

On December 12, 2014, the Board of Directors authorized a stock repurchase program permitting the Company to purchase up to 5 million of its outstanding common shares from January 1, 2015 through December 31, 2019. At September 30, 2017, we have 3.7 million shares available for repurchase under the stock repurchase program.

ITEM 6
EXHIBITS

a) Exhibits

Exhibits required by Item 601 of Regulation S-K are listed in the Exhibit Index hereto.

All other items hereunder are omitted because either such item is inapplicable or the response is negative.

EXHIBIT INDEX

<u>Number</u>	<u>Description of Exhibit</u>
4.1	<u>Term Loan Credit Agreement dated as of August 18, 2017, among Ingredion Incorporated, the lenders signatory thereto, Bank of America, N.A., as Administrative Agent, and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as Sole Bookrunner and Sole Lead Arranger (incorporated by reference to Exhibit 4.1 to the Company's Current Report on Form 8-K dated August 18, 2017, filed on August 24, 2016) (File No. 1-13397)</u>
31.1	<u>CEO Section 302 Certification Pursuant to the Sarbanes-Oxley Act of 2002</u>
31.2	<u>CFO Section 302 Certification Pursuant to the Sarbanes-Oxley Act of 2002</u>
32.1	<u>CEO Certification Pursuant to Section 1350 of Chapter 63 of Title 18 of the United States Code as created by the Sarbanes-Oxley Act of 2002</u>
32.2	<u>CFO Certification Pursuant to Section 1350 of Chapter 63 of Title 18 of the United States Code as created by the Sarbanes-Oxley Act of 2002</u>
101	The following financial information from Ingredion Incorporated's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2017 formatted in Extensible Business Reporting Language (XBRL): (i) the Condensed Consolidated Statements of Income; (ii) the Condensed Consolidated Statements of Comprehensive Income; (iii) the Condensed Consolidated Balance Sheets; (iv) the Condensed Consolidated Statements of Equity and Redeemable Equity; (v) the Condensed Consolidated Statements of Cash Flows; and (vi) the Notes to the Condensed Consolidated Financial Statements.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

INGREDIENTION INCORPORATED

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Ilene S. Gordon, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Ingredion Incorporated;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
